"The" Allen, the notorious exculves keeper, has been talking very freely during the past two or three days about the big fees which he says the pool-sellers in this city have been accustomed to pay the police for protection. According to his story, \$500 payments in a lump were not at all infreatent, and it has been intimated that he is willing to go on the witness stand and tell what he knows of that branch of the blackmalling business.

Allen is said to know more about one or two high officials in the Police Department than any other person in this city outside of the force. He openly boasts that he has aven up hundreds of good dollars in his day to secure the protection of his various resorts, and if he should make up his mind to tell what he knows, his teatmony would make the suiclest sort of reading.
